Map

I've cooked up a custom set of tiles using tilemill studio, so I can control what appears on my maps. I can also customise the details which I think are more important to the users.

Details

No point in my giving directions and listings of shops without details about the shops themselves, click the maplink on the menubar to find details about each including:

- wifi
- power points
- table service
- seating

About us

In September 2011, after 3 years of searching and saving, we opened our first stand-alone cafe on Lower Grand Canal Street in Dublin 2. The premises is spread over three floors with a basement kitchen, ground floor shop and a first floor office/training room. We run tasting courses, trainings, brew classes and corporate events. We also do coffee consultancy for machine manufacturers, tastings for corporate groups, and pretty much anything that involves coffee.

As well as running the shops, we've managed to keep fairly involved in coffee competitions of all kinds. I've been fortunate enough to win the Irish Barista Championships on three occasions and have finished 4th, 4th and 3rd in the World Barista Championships. We've also had latte art champions, a brewers cup champion, and even a Slovakian barista champion amongst our staff and although these are individual awards, there's always a collective effort behind them.

In January 2014 we began roasting our own coffee here in Dublin from our brand new roastery in Dublin 1. We sourced a refurbed 50-year-old Probat-UG22 and with the help of Steve from Hasbean, set about training our staff and implementing systems so that we could keep the quality of the coffee to the same level that we had become accustomed to over the years. Today our roastery is a full time operation that sends coffee all over the country
